

MEN

The allrounder. Our 2-layer jacket with completely sealed seams. Completely water-proof and extremely breathable, it supports all your movements thanks to "TAO-Comfort-Plus". An additional asset of the inside lining: it helps to absorb moisture faster and to evaporate it quickly. A hood which can be stowed in the collar affords additional protection. The sleeves and hems are adjustable and can be closed tightly against snow or moisture. This Protector jacket provides ample stowing space thanks to its two zip pockets at the front, a third pocket at the back and the inside iPod pocket.
