

The moment you put on our Light insulation layer shirt, you will adopt it as your favourite allrounder. Thanks to its ergonomic cut, specifically adapted to the female form, and thanks to its high elasticity, it affords unparalleled comfort: our "TAO-Comfort-Plus". Its breathable material, napped on the inside, generates a perfect microclimate during sports. Moreover, it transports moisture and dries fast. The collar style protects the neck thanks to its snug fit, and the covered zipper cannot scratch. A reflector-enhanced asymmetrical stowage pocket on the front means that you can take small items along.
